

HIV North Society is seeking members for our Intensive Case Management (Housing First) team.

HIV North Society is seeking dynamic individuals to fill five (5) Housing Support Worker positions. You must be passionate about making a difference in your community while supporting people within a harm reduction philosophy of “meeting people where they’re at.” This is a perfect opportunity for individuals to learn about harm reduction, homelessness, substance use, community supports and how to build bridges with vulnerable populations.

Housing Support Workers will support people who are experiencing homelessness to find and maintain market housing and connect to wraparound services.

HIV North Society is a progressive, non-profit organization actively engaged in changing the conversation surrounding drug use, people who use drugs, homelessness, HIV and other sexually transmitted and bloodborne infections. As a team member, you will gain knowledge in the following areas: HIV, hepatitis C and other sexually transmitted and bloodborne infections; Naloxone; Supervised Consumption Services; sex-trade and survival sex; substance use; homelessness; LGBTQ supports; comprehensive sexual health; harm reduction supply distribution; supportive housing; and community support networks. You will also be part of a supportive team that encourages personal and professional growth.

Successful candidates will possess the following:

- Willingness to participate in a progressive work culture
- Completion of post-secondary school or currently enrolled; or a combination of life and education experience
- Clean drivers abstract
- Clean criminal record
- Non-judgemental attitude
- Knowledge of STBBIs and Harm Reduction
- Understanding of vulnerable populations

Please email resumes and cover letters to Melissa Byers, Executive Director
